Investment Risk Tolerance

Investing involves risk. Different investment products and strategies involve different degrees of risk. The higher the expected returns of a product or strategy, the greater the risk that you could lose most of your investment. Investments should be chosen based on your objectives, timeframe, and tolerance for market fluctuations.

Please select the degree of risk you (and any co-applicants, if applicable) are willing to take with the assets in this account.

- Conservative.** I want to preserve my initial principal in this account, with minimal risk, even if that means this account does not generate significant income or returns and may not keep pace with inflation.
- Moderately Conservative.** I am willing to accept low risk to my initial principal, including low volatility, to seek a modest level of portfolio returns.
- Moderate.** I am willing to accept some risk to my initial principal and tolerate some volatility to seek higher returns, and understand I could lose a portion of the money invested.
- Moderately Aggressive.** I am willing to accept high risk to my initial principal, including high volatility, to seek high returns over time, and understand I could lose a substantial amount of the money invested.
- Significant Risk.** I am willing to accept maximum risk to my initial principal to aggressively seek maximum returns, and understand I could lose most, or all, of the money invested.
